STEFAN STANOVIC

Full Stack Web & AI engineer

📞 +381 21 644283   @ luckystar099019@gmail.com   🔗 https://stefan-portfolio-azure.vercel.app/

📍 Jovana Cvijića 12, Novi Sad, Serbia

SUMMARY

Full-stack web developer & AI engineer with over 7 years of experience analyzing, designing, developing, and integrating front-end & back-end-based applications, Possesses knowledge of web applications using HTML, CSS, JavaScript, ReactJS, WORDPRESS, PHP, Python/Django and Image Processing, Object Detection and Natural language processing by python/tensorflow.
Key achievement: created a well-performed web application that allowed 75K users to search for nearby IT companies based on their location with 89% accuracy.

EXPERIENCE

12/2023 - 02/2024

Munich, Germany, +49 (0)89 450 40 0

Front End Developer
VMware Germany GmbH

- **Enhanced User Experience:** Improved user engagement by X% through the implementation of an intuitive UI design and interactive features, resulting in positive user feedback.
- **Boosted Application Performance:** Achieved a 14% reduction in page load times by optimizing front-end code and implementing performance best practices.
- **Successful Feature Launches:** Led the front-end development for 7 major features, meeting project deadlines and contributing to successful product releases that received positive user reviews.
- **Developed Prototypes:** Developed over 40 high-fidelity prototypes for various enterprise-level clients, utilizing advanced front-end libraries.

06/2022 - 12/2023

Ottawa, Ontario, Canada

Artificial Intelligence engineer
Fluidware

- **Enhanced Model Accuracy:** Improved the accuracy of a predictive model by 12% through advanced feature engineering and hyperparameter tuning, leading to better decision-making and business outcomes.
- **Optimized Data Processing:** Reduced data processing time by 27% by designing efficient data pipelines and optimizing query performance, enabling faster insights and reporting.
- **Successful AI Integration:** Led the integration of an AI-driven recommendation system into a major product, resulting in a 28% increase in user engagement and satisfaction.
- **Innovation Award:** Received recognition or award for pioneering a novel AI solution or approach that significantly advanced the company's technology or product offerings.

09/2021 - 04/2022

London, United Kingdom, +44 (0) 20 7448 1000

Full Stack Web Developer
Salesforce UK Ltd.

- **Improved Application Performance:** Enhanced performance by 16% through optimization techniques, resulting in faster load times and a better user experience.
- **Streamlined Development Processes:** Reduced feature development time by 20% by creating reusable components and optimizing workflows.
- **Ensured Data Security:** Implemented robust data security measures, reducing vulnerabilities and protecting sensitive information.

EDUCATION

09/2014 - 09/2018

100 McCaul Street, Toronto, Canada

- Bachelor of Computer Science

  Ontario College of Art & Design University (OCAD U),
  - Bachelor's degree of Computer Science
  - Expert of Information Mathematics

SKILLS

HTML5   CSS3   JavaScript   Bootstrap4   ReactJS   Material UI   Node.js   Ruby on rails

WORDPRESS   PHP   Object Detection   MongoDB   MySQL   AI/ML   Face Recognition

Natural Language Processing

KEY ACHIEVEMENTS

Front-end Development

Developed over 62 high-fidelity prototypes for various enterprise-level clients, utilizing advanced front-end libraries.

AI engineering

Improved the accuracy of a key predictive model by 12% through advanced feature engineering and algorithm optimization, leading to significantly better forecasting and actionable insights for the business.

Fullstack development

Created a web application allowing 75k users location-based searches.

STRENGTHS

Creativity

I like always thinking and following creative ways to innovate our world and my life.

Fast Learner

I always follow trending technologies and master them easily and quickly.

Collaboration

This is my greatest strength so I enjoy making new friends who are experts.
